Margaret Rothe, MA, HigherGrounding College Counseling

INTRODUCTORY AND INTERMEDIATE

Bel-Air IV-VI

No sole proprietorship comes without a learning curve for doing business. It also comes with a learning curve of personal adjustments. Independent, also means it's all up to us to sell our services, manage client process and collect on our billing. Constantly putting ourselves out there can be exhausting. This workshop will help you reconnect with your inner CEO and laugh at our shared experiences. Audience participation will be rewarded!
